BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 95-49; RM-8558]

Radio Broadcasting Services; Llano and Marble Falls, TX

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Maxagrid Broadcasting Corporation, licensee of Station KBAE, Llano, Texas, substitutes Channel 285C3 for Channel 284C3, reallots Channel 285C3 from Llano to Marble Falls, Texas, modifies Station KBAE's license accordingly. See 60 FR 22021, May 4, 1995. In addition, the Commission allots Channel 242A at Llano, Texas. See 61 FR 42230, August 14, 1996. Channel 285C3 and Channel 242A can be allotted to Marble Falls and Llano, respectively, in compliance with the Commission's minimum distance separation requirements. The coordinates for Channel 285C3 at

Marble Falls, Texas, are 30-26-45 and 98-11-45. The coordinates for Channel 242A at Llano, Texas, are 30-49-57 and 98-40-44. Since Marble Falls and Llano are located within 320 kilometers (199 miles) of the Mexican border, concurrence of the Mexican government has been obtained for these allotments. With this action, this proceeding is terminated.

DATES: Effective July 14, 1997. The window period for filing applications for Channel 242A at Llano, Texas, will open on July 14, 1997, and close on August 14, 1997.

FOR FURTHER INFORMATION CONTACT: Pam Blumenthal, Mass Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 95-49, adopted May 14, 1997, and released May 30, 1997. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, NW, Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, ITS, Inc., (202) 857-3800, 2100 M Street, NW, Suite 140, Washington, DC 20037.

BILLING CODE 6712-01-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 571

[Docket No. 95-87, Notice 3]

Denial of Petition for Reconsideration; Federal Motor Vehicle Safety Standard No. 108; Lamps, Reflective Devices, and Associated Equipment

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Denial of petition for reconsideration.

SUMMARY: This document denies a petition from Koito Manufacturing Co., LTD. (Koito) to reconsider a final rule implementing new photometric performance for motorcycle headlamps. Koito requested that the upper beam maximum intensity limit be removed or increased from 75,000 cd. to 112,500 cd. Koito also requested that the foreground (4D-V) limit increase from 7,500 cd. to 12,000 cd. No safety reason for these changes was claimed. Because of existing research raising concerns about increasing maximum upper beam intensity because of glare problems, and because of safety concerns about making foreground light too bright in comparison to H-V (down the road) light, the agency has decided to deny the Koito petition for reconsideration.

FOR FURTHER INFORMATION CONTACT: Mr. Jere Medlin, Office of Crash Avoidance Standards, NHTSA, 400 Seventh Street, SW, Washington, D.C. 20590. Mr. Medlin's telephone number is: (202) 366-5276. His facsimile number is (202) 366-4329.

SUPPLEMENTARY INFORMATION: By letter dated September 20, 1996, Koito petitioned the agency to change two requirements in the final rule on motorcycle photometric requirements (Docket 95-87 Notice 2). Koito wants these new limits to make the design and manufacture of headlamps with two dual filament light sources easier. Koito stated that mainstream motorcycles in the United States are equipped with a single headlamp incorporating two, dual-filament light sources. Koito states that such two-bulb headlamp designs will exceed the new upper beam intensity limits. Koito therefore requested that, for the ease of design and manufacture, certain upper beam intensity limits be removed or changed to be similar to those in the Economic Commission for Europe Regulation No. 48 (ECE R48).
